

Peal Compositions
of
Bristol Surprise Royal
by
David G Hull

11 January 2008

This document represents my complete collection of compositions of Bristol Royal, both rung and unring. Where known, rung compositions are marked with an asterisk, although there are probably some omissions.

Whilst the majority of the compositions focus on the generation of tenor-together (mostly) little-bell rollups, there are a number which split the tenors in various ways to give some less familiar combinations along with plenty of cyclic music. Most of the ideas are original (I think!) but some are unashamedly borrowed from the work of Rod Pipe (from his Maypole Alliance Maximus compositions), Chris Poole and George Campling, who has called a number of these compositions himself. John Warboys has also used the calling S2.S3 to rotate 7890 – I'm not sure which one of us got there first though!

I considered 5160 no.1 to be innovative at the time of composition (some time in 1993 I think, in the bowels of Baskerville House at Birmingham City Council!) and the slightly modified 5160 no.1A was rung on the back ten at York Minster in 1996, a fantastic performance by all the band and with David Pipe ringing the tenor in 4 hours and 25 minutes. An overriding memory is of Queens coming up in fine style 7 leads, and 15 minutes, from the end; Mark Davies will tell you that Queens on 10 is overrated – in those circumstances I beg to disagree. Alex Byrne has also produced a version of this composition dispensing with the slightly ugly course which moves to the handstroke homes.

As with any collection of compositions, typographical errors creep in from time to time. I hope I have kept these to a minimum but please, as always, prove a composition before you ring it. Please let me know of any errors that you find.

Anyone is welcome to ring any of the compositions, although please let me know if you ring one that isn't marked as having been rung before (and please credit the composition number in *The Ringing World* / Campanophile report).

DGH
